Subject: USGCRP Climate Science Report Comms Materials

Megan – attached are the communications materials from OSTP and USGCRP related to the final publication of the Climate Science Special Report (Volume I of the Fourth National Climate Assessment) and the release of Volume II of NCA4 for public comment.

Note that OSTP suggests that any questions regarding the NCA volumes and process be directed to USGCRP. The individual agencies would be expected to respond to inquiries that relate to their agency responses or activities.

The release date is not yet final, but is anticipated for November 3. These materials are close-hold, as you would expect.

I am happy to let IOAA management know about this, unless you would prefer to do that. Let me know if you have any questions.

Subject: RE: Upcoming release of the USGCRP Climate Science Report

Hi Megan, Maggie, et al.:

I received some additional information from USGCRP. They are, in fact, preparing some materials for the release of the Climate Science Report and expect to distribute them to the agencies in the next week or so.

I will let you know if I hear anything more.

Subject: Upcoming release of the USGCRP Climate Science Report

All:

The USGCRP Climate Science Special Report (CSSR) is scheduled to be published on November 3. At the same time, USGCRP will release the draft of the Fourth National Climate Assessment (NCA4) for public comment and review by the National Academies.

You probably recall the hoopla surrounding the “leak” of the CSSR a couple of months ago, so it is likely that we’ll see a fair amount of media coverage of the final report publication. My understanding is that neither USGCRP nor OSTP is planning any statement for the report’s release, and current indications are that they will not provide any background or other materials.

My expectation is that EPA is not going to prepare any materials or statements, either, at least for use at the AA level. I don’t know that for a fact, but thought it would be good to

raise the issue to you so that you can prepare as needed. My guess is the preparations are to direct inquiries to USGCRP or to the Administrator's Office, but it would be good to verify that ahead of time.

I've had a quick discussion with OAR staff, and they are not preparing any materials or statements. I'll be glad to follow up with them if there is any guidance, and I'm sure you know the appropriate people in their communications staff to keep in the loop as well.

If there is any need for information on the CSSR or the NCA4, please let me know and I will provide what I can.
